

# PIECES OF THE PUZZLE

## Volume 1 – Psychic Phenomena

by

Trinda Latherow

After the birth of her daughter and death of her mother, Trinda started out on the adventure of a lifetime and began a spiritual quest for the truths to our existence. “Who are we, where did we come from, and why are we here?” Little did she know at the time that it would reunite her with her mother and introduce her to a spiritual family of guides and teachers from the other side.

Along the way, she is joined by some of the most intriguing people ever brought together for such a book series, world-renowned psychics, scientists, authors, artists, spiritual leaders, gifted laypeople, and spiritual seekers from around the world. Together they explore the supernatural, our reality, an afterlife, and our soulful connection to one another. Meet the world famous survival evidence medium, James Van Praagh, America’s number one radio psychic-counselor, Allene Cunningham, psychic-channel, astrologist, and the once teacher to John Edward, Sandy Anastasi, and many other notable psychic-mediums throughout the U.S., as well as other insightful souls in both *flesh and spirit* who each may hold valuable, *pieces of the puzzle* to our existence.

Find out what Trinda and the others have discovered of the unseen world around us, in this real life journey of one soul’s search for the truth about the supernatural and spirit communication, as well as how to develop your own natural, intuitive abilities to help guide you toward living a more spiritually fulfilling life. Her only request is that you keep an open mind along the way, as some of it may just challenge your whole identity.
